

# Notice of work:

## Central City Transport Projects – Road Closure – Stewart Street

**What** Construction of a raised pedestrian crossing/cycle way at the north end of Stewart Street

**Where** Stewart Street and St Asaph Street intersection

**When** From Monday 14 May 2018 for approximately four weeks

**Why** Central City Transport Projects are upgrading the travel network to provide a compact, streamlined and efficient, people-friendly Central City which supports the economic, social and environmental recovery of the Central City.

### WHERE ARE WE WORKING?

*St Asaph Street and  
Stewart Street.*

### WHAT ARE WE DOING?

We are building a safe and accessible raised pedestrian and cyclist crossing on Stewart Street at the St Asaph Street intersection as part of our footpath and road upgrades.

The general work along St Asaph Street is part of the larger Hospital Corner redevelopment and has included major works including installing and reconstructing new kerb and drainage, new road surfaces, footpaths, cycle lanes, street lighting, traffic signals and street furniture.

Project delivered by

## WHY IS THIS WORK HAPPENING?

Work on St Asaph Street is already underway to create a direct and efficient, two lane, east-to-west route through the central city for all forms of transport. This will support the effective functioning of the Christchurch Hospital and the new Outpatients building. St Asaph Street will have a modern, open feel, leading to the beautiful and iconic Hagley Park on its western edge.

## HOW THIS WORK MAY IMPACT YOU

Vehicle access from St Asaph to Stewart Street will not be possible during the road closure but pedestrian access will be maintained throughout. Access to businesses and buildings on Stewart Street will be from Moorhouse Avenue and traffic flow will remain two way. Some localised and temporary coned off zones may be necessary to permit access to areas. There will be increased levels of localised noise, dust and vibration for short periods for which we apologise. However, this work is essential in completing the Hospital Corner project.

The Stewart Street work is expected to finish by the end of June 2018 and the entire Hospital Corner work will be complete by the end of 2018.

Find a car park using <https://www.ccc.govt.nz/transport/parking/carpark/>

## GENERAL INFORMATION

### WEATHER

All works are subject to favourable weather and on-site construction conditions.

### HOURS

Our standard work hours are Monday to Friday between the hours of 7am and 6pm. We may also need to work weekends to carry out essential work.

### NOISE

There will be increased noise, dust and vibration levels associated with this work. We will do our best to minimise this.

### SAFETY

Safety is our number one priority. Safety is your responsibility too. Stay clear and keep alert – keep children and pets at a safe distance from the work site.

*We sincerely apologise for any inconvenience caused by this work and thank you for your patience.*
